

ACTUPA250LP Low Profile Air Mover

¼ HP Daisy Chain Low Profile Air Mover

The ACTUPA250LP Low Profile Air Mover is a light-weight, commercial grade, low profile air mover that produces large air volume for intense drying and air circulation. The compact and durable rotomolded plastic housing is designed for tight areas such as crawl spaces, basements, attics and more. The ACTUPA250LP can be stacked up to six (6) units vertically and horizontally for easy storage and to speed up the drying process. These units can be daisy chained up to five (5) units through its built-in low draw 2.51A GFCI outlets.

Product Features

- Built-in GFCI power outlets for daisy chain
- Interlocking housing design for stack-ability
- Wrap-around cord design to keep cables organized
- 1-year full warranty on parts and labor and 5-year full warranty on housing free from defects in design, materials and workmanship
